

## Unlock More Nutrition

# Extract

POWERED BY Accomplish™

**EXTRACT** Powered by Accomplish® (6-0-0-13S) is proprietary blend of proven Accomplish biocatalyst technology and ammonium thiosulfate. It is designed for liquid broadcast application (pre-plant, pre-emergent, sidedress or residue) to maximize nutrient mineralization and release.

### PRODUCT BENEFITS

- Promotes release of nutrients from the soil, crop residues and organic and inorganic nutrient applications, including liquid fertilizers, manures and litters
- Extends existing nutrient availability later into the season
- Optimizes yield potential

### RATES

1–2 gals/a

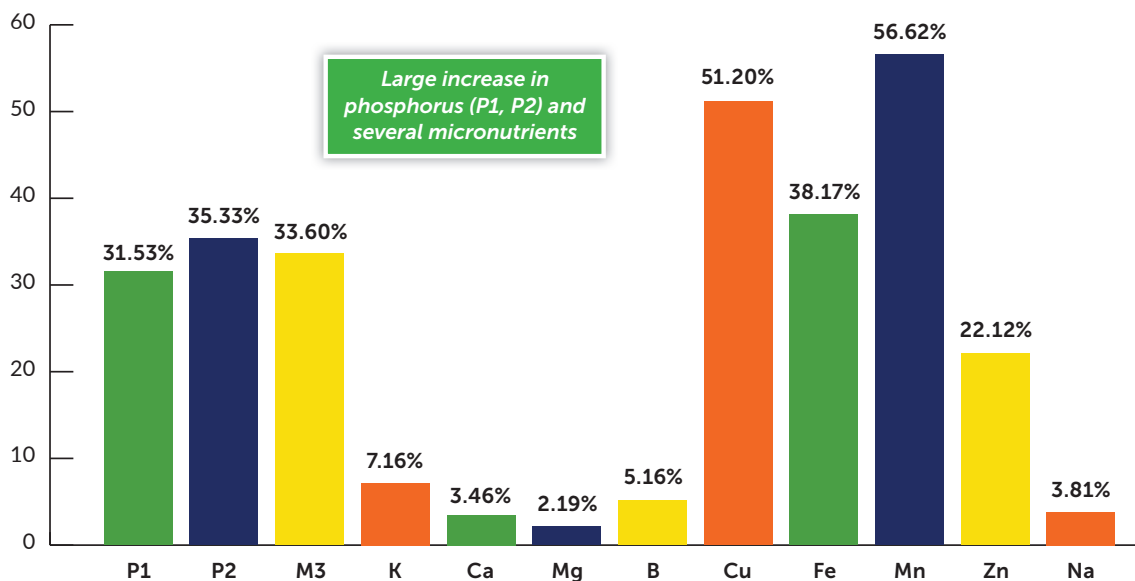

### ANALYSIS

6-0-0-13S

### % Increase in Soil Nutrient Content After Extract Application

Extract applied at 1 gal/acre with spring pre-emergent herbicide

Note: Results are averages of soil tests taken from two locations (Dassel and Fairmont, MN) in 2019.

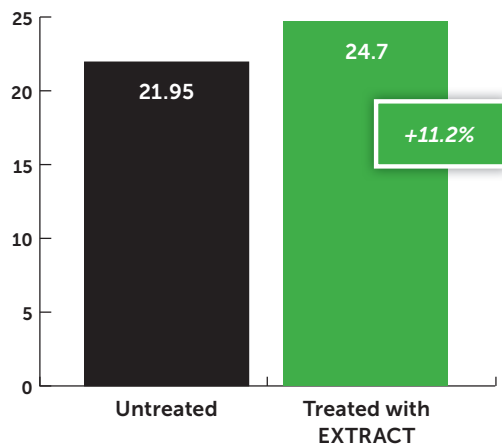

## Extract Soil Nutrient Tests – University of Nebraska Extension, Grant, NE

Extract applied at 1 gal/acre with spring pre-emergent herbicide

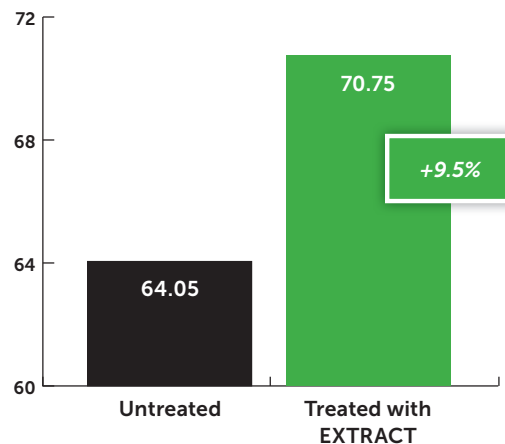

### Extract Increases Availability of Soil Nitrate-N

Nitrate-N (lbs/a) at 0-8 Inches Deep

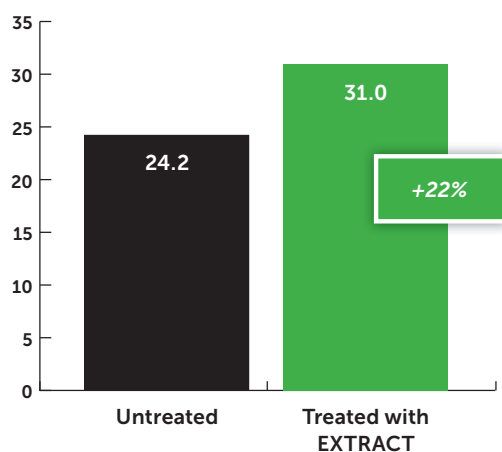

### Extract Increases Available P & Total Soil P

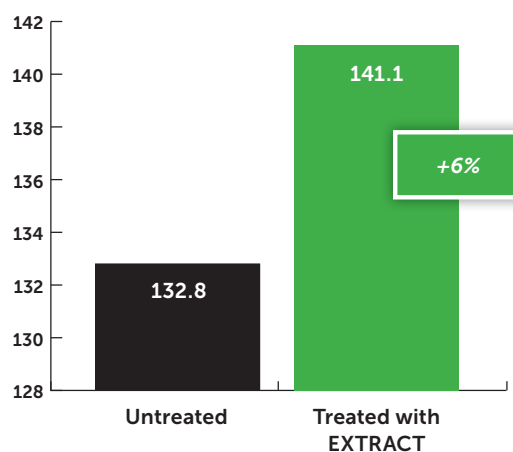

Available Phosphorus – Bray P1 (ppm)

Nitrate-N (lbs/a) at 8-24 Inches Deep

Total Phosphorus – Bray P2 (ppm)

Note: Trial was 4 randomized replications. Results are averages of soil tests taken every 2 weeks for 4 months after Extract was applied April 19, 2019.
