

EXTRACT™ Powered by Accomplish™ (Extract PBA) (6-0-0-13S) is a biocatalyst formulated to maximize nutrient release from a grower's fertilizer investment. Extract PBA is optimized to help growers easily manage nutrients tied up in the soil and in crop residue by accelerating the release of existing nutrition while also increasing nutrient availability. Tank mix Extract PBA with herbicides for spring burndown applications, use it with liquid fertilizers to enhance spring broadcast applications, or spray it on crop residues in the fall to enhance nutrient release.

FEATURES

- Maximizes nutrient release from crop residues and the soil
- Extends nutrient availability later into the season
- Enhances nutrient use efficiency
- Optimizes yield potential

Extract Result on Soybeans
