

Drive efficiency in your dry fertilizer program with **TITAN® XC**. Specifically formulated for impregnation on dry fertilizer blends, TITAN XC is the key to quick release and uptake of vital plant nutrients, helping to drive yield, efficiency and sustainability on your acres. The unique and concentrated biochemistry in TITAN XC provides the broadest range of activity across phosphorus, potassium, sulfur and other nutrients to maximize the return on your dry fertilizer investment.

## FEATURES

- Superior performance on dry fertilizer blends
- Works on the fertilizer you apply it to for consistent performance across all crops and soil types
- Compatible with a variety of dry fertilizer blends (P & K, MESZ, MES10, sulfate of potash, ammonium sulfate)

## ANALYSIS

*Bacillus licheniformis* and associated metabolites

## GROWER BENEFITS

- Expedites nutrient availability of applied dry fertilizer
- Extends uptake of nutrition by changing the way applied dry fertilizer reacts to soils for less waste and more plant performance
- Drives better root growth and development by enhancing nutrient use efficiency of a dry fertilizer application

## RATES

1–2 pt/ton of dry fertilizer

### Corn – Avg. of 3 Fields – Greene County, IL (2022)

TITAN XC applied to grower's standard dry fertilizer at 1 pint/ton in fall of 2021
